

EZ-Glaze

 Product Guide

Welcome to Molan UK

From our incorporation in 1993 Molan UK Ltd has evolved to become one of the market leaders in the supply of bespoke cut to size Multiwall Polycarbonate Sheet roof packs and associated plastic sheet products in the UK.

Our business has been built around the service we provide to you (the customer). We have always believed that we should lead the industry by offering valuable benefits to customers that set us apart from the competition.

Some of our key services:

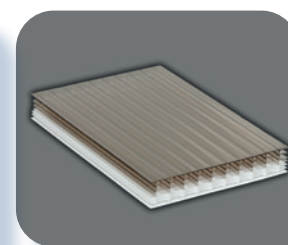

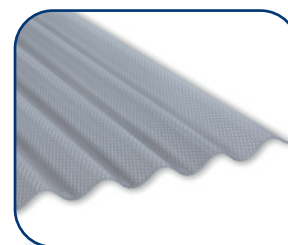

- Nationwide Delivery Service
- Quoting Services
- Customer Support
- Dedicated Sales Team
- Customer Product Training
- Technical Product Support

We offer the following products:

- Bespoke cut to size and stock size Polycarbonate Roofing
- Solid Polycarbonate Sheets
- Acrylic/Styrene Sheets
- PVC Hygienic Flat Sheets
- Evolution Canopy System (bespoke options available)
- Sunwood Aluminium Timber Glazing System
- Glazing Bars plus ancillary products
- Corrugated Sheets (Bitumen/PVC/Polycarbonate/Galvanised)

Contents

Corrugated PVC Roofing Sheets & Accessories	P 4-7
EZ- Glaze "Glass Look" Profiled Polycarbonate Roof Sheets	P 8

Flat Glazing Sheets (Acrylic, Solid PC & Styrene)	P 15-20
Palclad Hygienic sheets & accessories	P 21-24
Flat Foamed PVC Sheet	P25
Evolution Canopy System	P 26-27
Sunwood Timber Glazing System	P 28-31
ClickLoc Roof System	P 32
Rafter Supported Roof Glazing Bars & Accessories	P 33- 40
Self Supported Roof Glazing Bars	P 41-45
Multitwall Polycarbonate Sheets	P 46-73

APPLICATIONS

- Porches
- Carports
- Swimming Pools
- Greenhouses
- Patio Canopies
- Covered Walkways
- Grandstands

FEATURES & BENEFITS

PVC Corrugated Sheet combines a number of excellent qualities including low weight, strength and durability, attractive appearance and low cost. They are available in a variety of profiles.

- Resistance to extensive range of chemicals.
- UV Resistant.
- Fire resistant meeting the highest standards.
- Weather Resistant.
- Flexibility for easy construction of arched roofs and curved walls.
- Good Impact strength.
- Easily handled, quickly installed.

EZ GLAZE BH High Impact Polycarbonate Roofing Sheet with a Prismatic Surface

Embossed Polycarbonate Sheet – Strong, Durable & Stylish

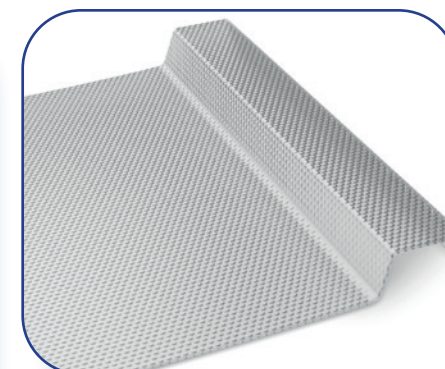

The EZ-GLAZE BH (Beehive) 2.8 mm embossed polycarbonate sheet features a unique honeycomb texture, specially developed for roofing pergolas, patios, and outdoor structures.

This high-performance sheet delivers outstanding resistance to harsh weather conditions, including hail, making it an excellent solution for comfortable and long-lasting outdoor spaces.

Installation is quick, simple, and cost-effective, thanks to direct fixing onto rafters.

The result: a modern, elegant, and minimalist roofing solution that enhances any outdoor area, bringing in abundant natural light with minimal maintenance and maximum convenience.

Palruf-BT Corrugated bitumen sheets are sturdy, economic building materials and suitable for roof angles of between 7 - 85 degrees. These sheets are suitable for commercial and domestic applications, e.g. as roofing for garden sheds or holiday chalets, as a wind-breaker or screens or even as panelling for carports. Sheets can be cut with a hand saw, secured with Bituwel nails and can easily be handled by one person. This means they are ideal for do-it-yourself enthusiasts.

SOLID POLYCARBONATE sheets are as transparent as glass, 200 times stronger and less than half the weight. They are ideal for use in areas exposed to vandalism and wherever strength and high impact resistance is needed.

FEATURES

- Virtually Unbreakable
- Lightweight - less than half the weight of glass
- Transparent - 90% light transmission
- Fire Rating - BS476/7 Class 1Y
- Good Thermal Insulation
- Resistance to chemicals
- Easy to mount

- Flexible, Formable, Machinable.
- Easy to Clean

APPLICATIONS

- Safety Glazing
- Protective shields for machines in factories
- Glazing in schools and public buildings
- Construction of protective enclosures for bus stops & telephone booths.
- Roofs for buildings and halls
- Glazing of windows
- Covered Patios, Walkways or conservatories
- Skylights

ACRYLIC SHEETING is more transparent and 10 times tougher than the equivalent thickness of annealed glass. Its inherent UV resistance makes it ideal for outdoor applications. It can withstand wind, extreme changes in temperature and saltwater spray. It can easily be formed, shaped, sawn, routed and drilled.

FEATURES

- Transparent - above 90% light transmission
- Inherently UV resistant
- Stronger than glass

- Lightweight - less than half the weight of glass
- Easily formed or fabricated
- Easy to mount
- Good chemical resistance
- Good thermal insulation

APPLICATIONS

- Glazing
- Signs
- Light fixtures
- Shower enclosures
- P.O.S. Displays
- Fabrications
- Thermoforming

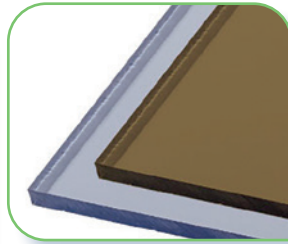

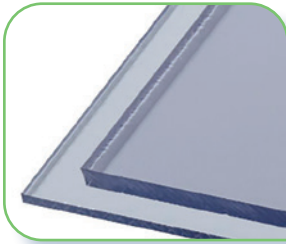

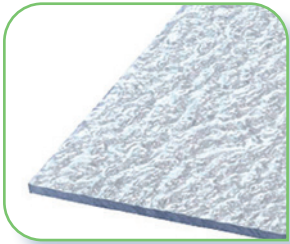

STYRENE SHEETING is crystal clear and ideal for low cost internal glazing applications. It is 3 times stronger than the equivalent thickness of annealed glass, yet only half the weight.

FEATURES

- Transparent - above 90% light transmission
- Safer than glass
- Stronger than glass
- Lightweight - less than half the weight of glass
- Easy to cut & drill
- Low Cost

APPLICATIONS

- Splash Backs
- Picture Framing
- Interior Doors
- Display Cabinets
- Secondary Glazing
- Show Cases
- Wallpaper protection
- Finger Plates

Palsun Plus Solid Pc

Glass clear high impact sheets suitable for a wide range of applications:

- Roofing
- Security glazing
- Balustrades
- UV protected class one fire rating

The High Performance Canopy System

The Evolution Canopy is an exciting system, encompassing a modern design with clean sight lines providing ease of installation. In addition, its high structural performance ensures this system is an ideal choice for domestic, DIY and commercial applications.

This highly versatile system offers a solution for many applications such as:

- car ports
- covered seating areas
- covered play areas
- porches
- patio canopies
- caravan shelters
- cycle shelters
- smoking shelters
- walk way covers

The system can be supplied in modular kit format (please contact us for the current size matrix) as well as bespoke sizes and configurations.

For specific non-standard projections please contact your local distributor for technical support. The kits are supplied with all the fixings and sealants required for a standard installation and also includes a comprehensive fitting guide.

System Features

- Stock frame colours available: RAL 9910 White RAL 7016 Anthracite Grey, RAL 8016 Brown.
- Custom RAL colours available please contact the sales office for information.
- The canopy is glazed with 16mm triple wall UV stabilised polycarbonate sheeting offering greater flexibility in canopy design with enhanced strength and rigidity, available in clear, bronze opal or heatguard tints.
- System also available glazed with 6mm toughened glass panels or 6mm solid polycarbonate panels please contact the sales office for more information.
- The eaves beam cleverly double's as an integral box gutter utilising the support posts as down pipes with the rain water exiting through the variable height post feet.
- The system can accommodate pitches from 5 degrees to 20 degrees, on standard modular kits the maximum projection is achieved at a pitch of 5 degrees.
- As well as the standard lean too configuration the system can be specified as a gable roof design with the wall plates bolted back to back to form a ridge.

Features

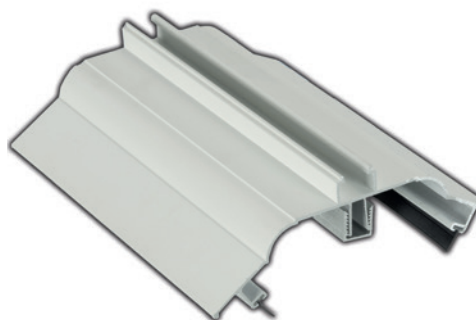

The sunwood professional range is designed around a wider, maintenance free, powder-coated aluminium ridge. This is able to accommodate glass and polycarbonate and is supplied complete with thermoplastic weatherproofing seals. A slide-in channel carries the optional finial and cresting and a grooved support bar provides quick and easy installation.

- Professional Aluminium timber conservatory glazing system
- Maintenance free
- Powder coated aluminium system
- Concealed screw fix design

ClickLoc is a modular roof panel system made from 16mm multi-wall polycarbonate that clicks together to form a roof and does not require any glazing bars.

The panels fit over purlin roof structures, simply cut to length screw into place and trim using "F" sections and sheet end closure.

The panels are light weight easy to handle UV protected 16mm multi-wall polycarbonate.

PVC-U Capped Rafter Supported Bar

A strong lightweight easy to fit glazing bar that accommodates 10, 16 & 25mm Multiwall Polycarbonate Sheet Sheeting and is ideal for most applications.

- Single bar accommodates 3 popular sheet thicknesses.
- Recessed grooves in aluminium base provide secure housing for sealing gasket and U-PVC edge trim.
- Co-extruded lip on PVC cap allows for a watertight finish while permitting the thermal movement of the sheet.
- Attractive push on end cap.
- Available in white and brown PVC-U

Range of Exitex Aluminium Capex 40/60 bars and ridges available please contact the sales office for details.

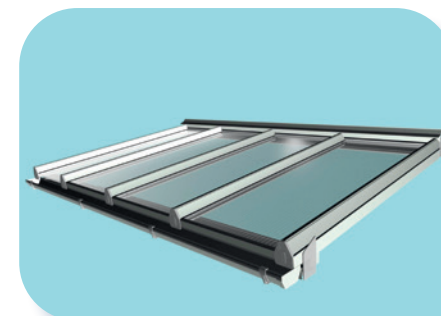

16/25/35MM SELF SUPPORT GLAZING BAR SYSTEM

The System includes 4 main components

- Wallplate Assembly
- End Glazing Bar
- Intermediate Glazing Bar
- Eaves Beam

The system is specifically designed as a Lean- To Roof System for use with 16, 25 & 35mm Multiwall Polycarbonate Sheet Roofing Sheet. The bars are capable of spanning up to 4 metres (set at 600 centres) without any cross bearers (purlins). We recommend a minimum of 10 degrees roof pitch with this system.

For Lean-To Roofs To Take a Load of 600N/M2

WALLPLATE

The Wallplate should always be fitted to a solid wall e.g. brick, block or stone. It comprises of the following components.

- Aluminium Wallplate with seals
- PVC Wallplate Top Flashing
- PVC Wallplate Underclad
- 2 End Covers with screws

INTERMEDIATE BAR

This has 4 main components

- Aluminium 'T' Bar
- PVC underclad with weather proof sealing gaskets co-extruded (fused) onto the rigid white plastic
- Bar End Cover with screws
- PVC Top Capping

END BAR

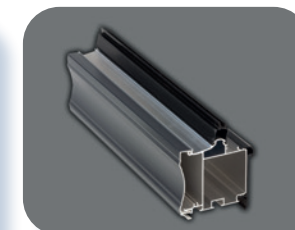

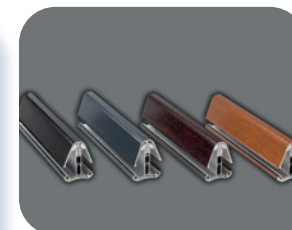

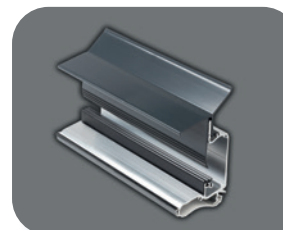

This has 5 main components

- Aluminium 'T' Bar
- PVC Underclad
- PVC Top Capping
- Bar End Cover
- PVC edge trim

EAVES BEAM

This has 4 main components

- Front and back PVC cladding
- Glazing support trim/gasket
- 2x End caps
- Thermally broken
